The Agile Manufacturing Software Platform
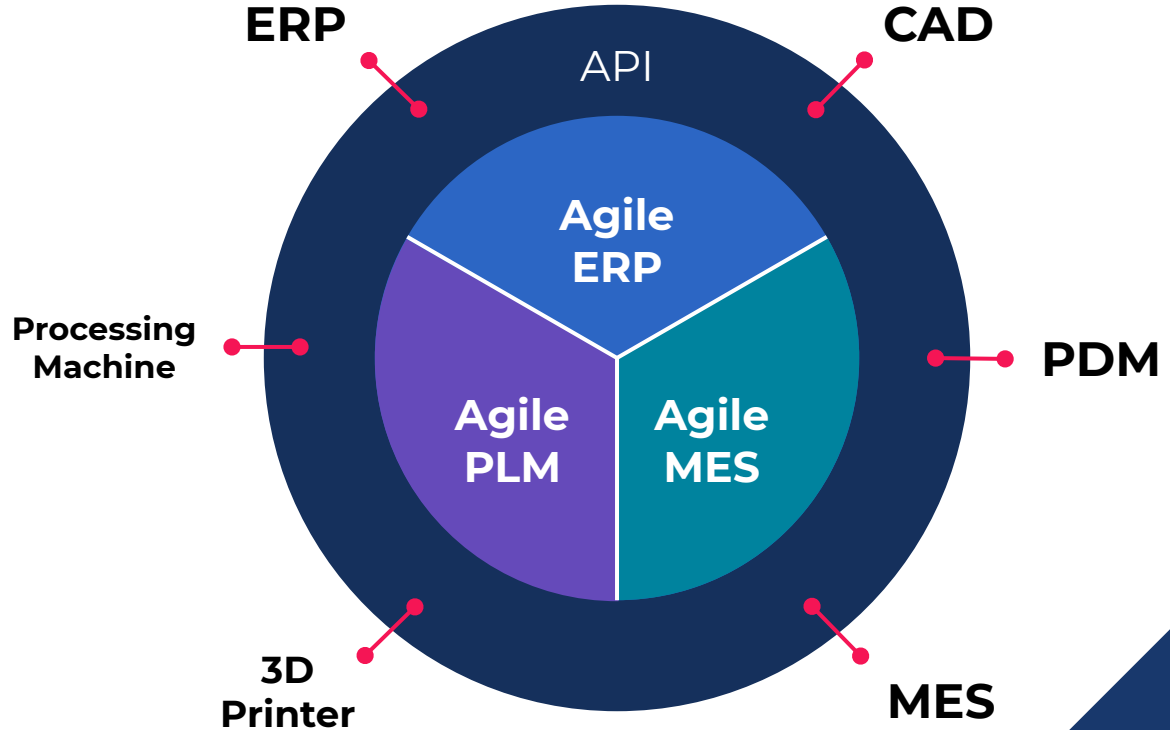

We standardize, optimize and automate additive.

3YOURMIND

The 3YOURMIND Agile Manufacturing Platform

Our platform is installed in the **cloud or on-Premise** and covers all value adding processes for Additive Manufacturing.

It runs **stand alone or connects via API** to other IT Systems.

50+ Enterprise Customers in key markets since end of 2017

15.000+ Engineers have used our software
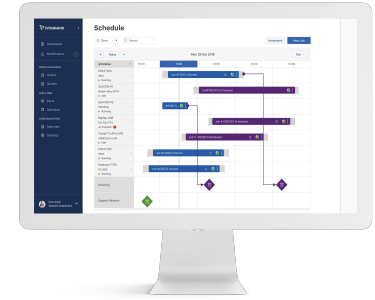

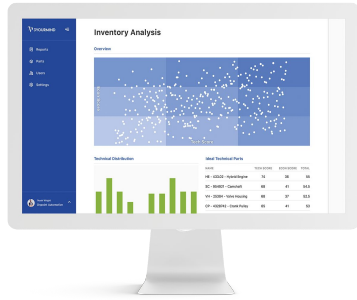

300.000+ parts analysed; 10.000+ prices calculated every day

End-to-end solution for AM

Our software products covers all value adding processes for Additive Manufacturing.

Agile PLM

Manage Innovation Processes
Store, share, prepare files
Analyse thousands of designs and identify AM fit

Agile ERP

Manage Business Processes
Ordering, pricing, payment, fulfilment & reporting amongst departments & companies

Agile MES

Manage Production Processes
Plan & optimise resources
Connect printers, aggregate & analyse print & quality data

Highest security — Cloud & On-Prem — Trusted by various industries, incl. Medical, Automotive, Defense, … — Adopted for most sensitive processes & data

Customer Use Case - Agile ERP, Agile MES
30+ Machines, 90+ Materials, 8 Technologies

Process time & steps for producing one part	Time investment without 3YOURMIND	3YOURMIND
Order Input process	15 min (7 steps)	3 min (6 steps)
Project Coordination	27 min (9 steps)	9.5 min (5 steps)
Production management	158 min (11 steps)	39.5 min (9 steps)

$22.6k saving of operational costs **printer/year**.

45% higher utilization of printers.
